OUR PHILOSOPHY

Cooperative Preschool can be a very rewarding experience for your child. This is his/her own place where his/her fun, needs, and feelings are a primary importance to the adults present. Here, he/she is free to be as active as he/she wishes. There are new and exciting toys and opportunities for creative play and many playmates. Preschool provides an ideal arrangement for a child to enjoy himself/herself and to learn many skills.

From a parent's viewpoint, the preschool provides play and learning experiences under the direction of a trained, objective teacher in an environment that is carefully planned to fit the child among playmates who are the same age. The preschool introduces the idea of cooperation in group play while learning new skills and allows the child to become acclimated to leaving home and accepting other adults as authority figures. A cooperative preschool encourages the parents and child to grow and share these experiences together.

ENROLLMENT GUIDELINES

1. Parent Volunteers: Parental involvement determines the quality of our program. Both children and parents benefit by having more adults in the classroom. We stay aware and active in what our children are learning and experiencing as they grow in a safe and nurturing environment. The reason a cooperative is more affordable and more fulfilling is because parents volunteer their time to help the school develop and maintain a flexible and rewarding program by working together!
